## ■ HOSPITALITY

## DESIGN PERSPECTIVE

## COMMERCIAL

Commercial interior design is about much more than just throwing together some paint samples and hoping for the best. In today's changing corporate landscape, the design of your office must not only be functional. It must also indicate style and show your client that you are the expert you claim to be.

## DESIGN PERSPECTIVE

## RESIDENTIAL

At ZXI, we present to you the vibrant Skyline project that stays with us as a very dear one. This is a concept design in the interiors where we blend modern style with vibrant colors. We thought of a wave like the concept that blends throughout the space and it follows. As in this case, this is the floating bed we designed

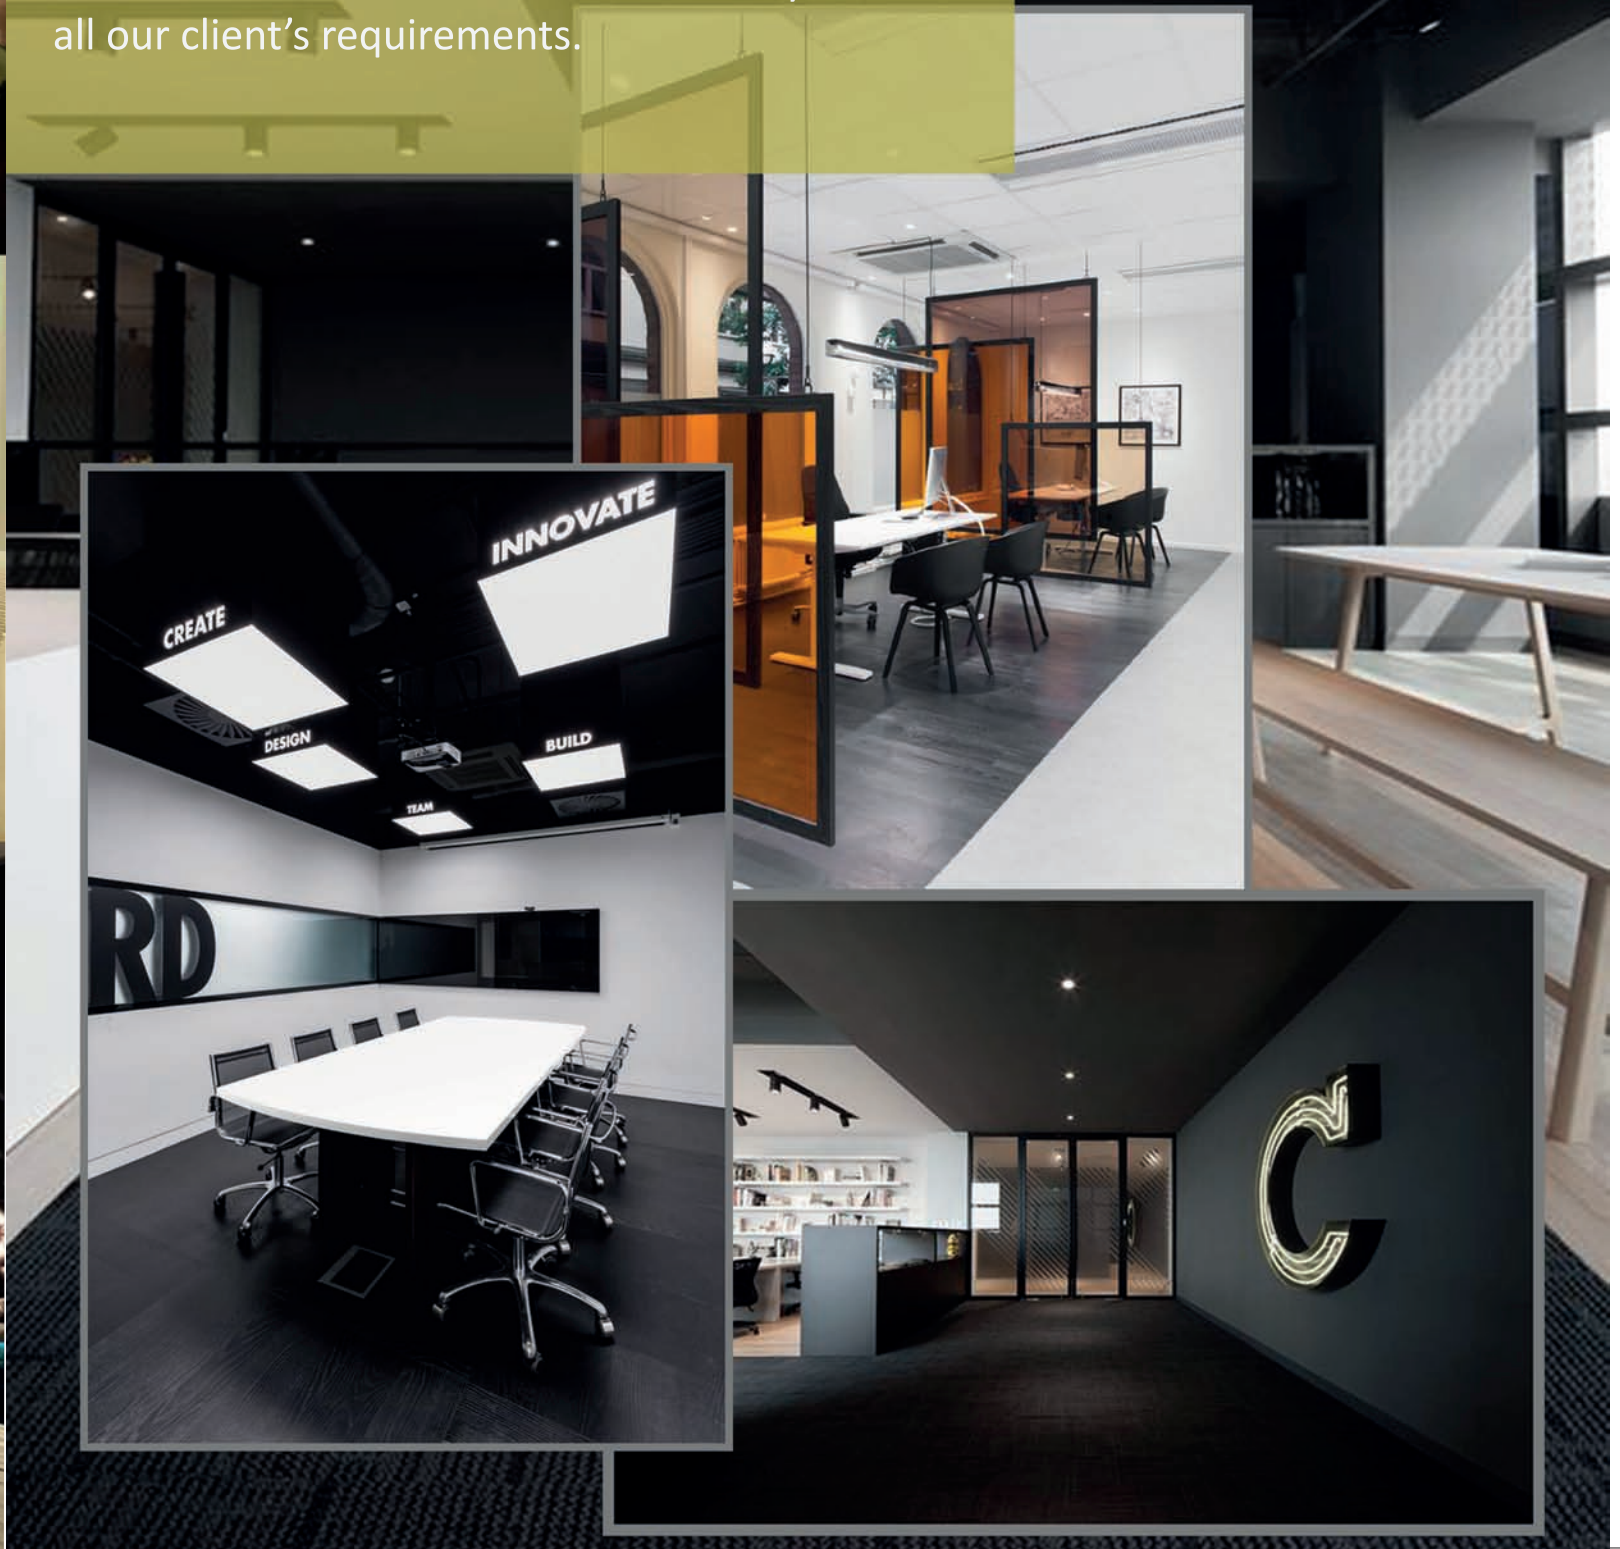

## DESIGN PERSPECTIVE

## OFFICE SPACE

At ZXI, we believe in creating the best designs for the perfect output. Workspace blended with the ideas of creation and deliverance are the major focus of works at ZXI. We make harmony work for all our client's requirements.

## DESIGN PERSPECTIVE

## HOSPITALITY

We pride ourselves on creating great design that actually transcends the meaning of what the hospitality sector needs. Space utilization along with style definition that makes guests happy becomes the prime prospect and more..

## TESTIMONIALS

“Excellent work, they did decoration of my two cafes in Business Bay and they were very professional and cost effective.”

-Mr.Ruwais
